

Career in need of inspiration?

Customer Business Manager

Berkshire. Up to £55k + car + bonus + full benefits package

Inspiration. At times elusive. At ICI, however, it's ingrained in our culture. As a Senior National Account Manager you might be feeling like a corporate cog. Perhaps your voice is not being heard, or ideas listened to. You might feel under valued and tired of the same old slog. Your career might just be in need of some inspiration.

At ICI, challenge is part of everyday life. This role is based at our ICI Paints head office, where the UK operation sits alongside our European colleagues. It's where we take talented individuals and turn them into our business leaders of tomorrow. It is where you will participate in our world class sales academy programme.

We're offering the opportunity to make an impact upon our biggest category, backed by our unrivalled innovation pipeline, to deliver sustained growth for our

market leading Dulux range, in one of our largest customers in the UK.

In this role you will take full P&L responsibility for a £multi-million account and develop a customer plan which will drive category initiatives, portfolio management strategy and new product development launch programmes. You will have the scope to challenge the business, deliver creative solutions and embrace a culture that has inspiration at its heart.

Confident, capable and credible, you will blend your analytical thinking and customer relationship building skills to make a difference and drive our brand forward. Your career will be heading in the same direction.

Inspire us. Send your CV to our advising consultants Pursuit NHA on dulux@pursuitnha.com or call Philip Hutchinson May on 0118 940 5117
